

Aka Cornelius Chigozie

Frontend Developer

Nigeria | chrystnelson@gmail.com | 09036315065 | github.com/chryst-nelson | [LinkedIn](#)

PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building responsive web and mobile applications using React.js, Next.js, Tailwind CSS, Material UI, and React Native. Experienced in building reusable UI components, integrating REST APIs, implementing JWT authentication, handling real-time interfaces with Socket.IO, and improving application responsiveness and usability. Also developing backend skills with Spring Boot and Java, including REST API development and application architecture. Currently building an AI-powered portfolio application using Spring Boot and AI/LLM integration.

TECHNICAL SKILLS

- **Frontend:** React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, React Native (Expo), Responsive Design
- **Backend:** Node.js, Express.js, Spring Boot (In Progress), REST APIs, JWT Authentication, Socket.IO
- **Database & Cloud:** MongoDB, Firebase, PostgreSQL, Cloudinary
- **Tools & DevOps:** Git, GitHub, GitHub Actions, Docker, Postman, Vercel, Render, Figma-to-Code
- **Core Concepts:** Component Architecture, State Management, API Integration, Authentication, Performance Optimization, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Frontend Developer (Internship) — NdiliaTalent — Remote | 2025 – 2026

- Developed responsive user interfaces using React.js and Tailwind CSS for a football talent discovery platform.
- Integrated RESTful APIs for dynamic data rendering, authentication flows, and user interactions.
- Improved mobile responsiveness and reduced UI bugs by 40% through systematic component testing and refactoring.
- Collaborated with backend and design teams to deliver consistent, accessible, and performant interfaces.

Software Developer Intern — Enugu State Tech Hub | 2022 – 2023

- Built and consumed RESTful APIs with Node.js and Express, strengthening understanding of client-server architecture and frontend integration.
- Implemented JWT-based authentication and session handling for secure application login experiences.
- Participated in team sprints and architecture discussions involving backend services and frontend integration.

PROJECTS

LearnerX — Learning Management System

- Built a multi-role frontend for learners and instructors using Next.js with role-based dashboard views.
- Developed responsive, data-driven dashboards and integrated backend APIs for course and content delivery.

Chat-Up — Real-Time Chat Application

- Built the chat interface and real-time message rendering using React and Socket.IO.
- Developed chat room UI and message history views with live update handling.

AI-Powered Portfolio — In Progress

- Currently developing an interactive portfolio application that uses Spring Boot as the backend and AI/LLM integration to answer visitor questions about projects, skills, and experience.
- Implementing the application as a practical project to strengthen Spring Boot, REST API, backend architecture, and AI integration skills.

EDUCATION

B.Sc. in Statistics — Enugu State University of Science and Technology | 2024 – Present

Full Stack Web Development Certification — Coursera (Meta) | 2023

CERTIFICATIONS & ADDITIONAL TRAINING

- Meta Front-End / Full Stack Developer Professional Certificate — Coursera
- Firebase for Web Development — Self-directed training (YouTube/Docs)
